

Hi Folks,

My friend John McMichael, CEO of Beechtree Labs, invited me to speak at their annual convention in Rensselaerville, New York this week.

There are 30 professional healers of various types in attendance, doctors, vets, psychologist and others, including my friend Dr. Al Dahlberg, Professor of Medical Science of Brown University.

These healers are meeting to share information and I was asked to speak on Energy Healing and Water. The talk went well and I was asked to work on a patient who had not responded well to conventional methods. Using the list of items I give to those attending my class, I came up with over 25 things affecting him. After working to correct these things, the patient's energy and emotions seemed to be greatly improved. Am waiting for further feedback at this time.

There are two separate locations for housing on the property. Yesterday, one of the doctors reported that there was a lot of sulphur in the water at the place he was staying. Taking a shower was less than pleasant. This morning, he asked if I had done something to the water? He couldn't smell the sulphur. Yes, I put a filter on the water line. The same type of filter I describe in 'Raymon's Water Filter' DVD.

[We had a fellow, Jason, in the class in Woodstock, Ny. who reported installing the mental water filter for his neighbors. We need more people like that.]

Dr. Brian Dailey has a camera which takes pictures of energy, ghost and other strange things not seen by the eye. He had a picture of Stonehenge looking as it normally looks, and then a picture of the stones taken with his camera, that were semi-transparent. We could see the horizon beyond the stones as we were able to see through them. Strange camera.

Brian asked if he could take a picture of me energizing water. Figured it would be interesting so I agreed. The camera projected the picture on a big screen for all to see. It clearly showed the energy of my heart, hands and the water expanding as I energized the water.

These folks wanted evidence that energy healing worked so Brian and I gave them some.

Am grateful for the opportunity to share dowsing and energy work with the Medical Profession.

A good time is being had by all.

It is time for A Call to Action. September 22, 8 P.M. Local time, where ever you may be in the world. For full details.... visit the web at - <http://www.raymongraceprojects.com/calltoaction.htm>

Raymon

**What have others been doing with this information? This is a letter we received from someone using his Energize Your Life DVD:**

*Hello,*

*First I'd like to say thank you to Raymon for finding a way to share his wisdom. I'm writing to share a story that has me grateful to him and the universe for providing a way to do something about violence.*

*Last Friday I visited my sister who lives in a small town a couple hours away. On the way there I called to confirm my arrival time, she was highly agitated and related a story about her son being beat up by some local ruffians the evening before. The ruffians went after the son's girlfriend as they were walking along the road. The son said he had no choice but to defend her even though there was a carload of them and he and the girlfriend had no others with them.*

*The son walks to the beat of a different peaceful drummer. His girlfriend said that as the son regained consciousness in a car on the way to the hospital he gave a peace sign out the window to the ruffians that were chasing them in another car.*

*I began clearing immediately. When I arrived at her house my sister told the story of how those ruffians (and others) had been causing trouble in that town for quiet some time. The town's people wouldn't go to the police for fear of retribution. I remembered that I had Raymon's videos I had planned to show another friend. It seemed like a great time to bring out the "Energize Your Life" video. We watched the video together, they focused on the son and I focused on the town as well. Over the next few days I practiced raising the energy of the town a few more times.*

*This morning my sister called to say that one of the ruffians had come up to the son and apologized. He told the son about his 6 kids (at age 27) and the son said he sounded like a different person. I don't have information to know if the general level of violence in the town has diminished though this might be an excellent start. (I asked my sister to let me know if she notices anything)*

*It wouldn't have occurred to me to try and raise the energy of an entire town to alleviate violence before seeing the video. Thank you for providing wonderful energy and information.*

*Regards and thanks,*

*M*
