Howdy Folks,

I would like to take this opportunity to THANK all of you for your support and friendship this year.

I read the e-mails you send, and they tell me that we are working with the best people on the planet. Your notes about your successes, for both yourselves and those you are helping, make it all worthwhile.

We are now reaching people in at least 35 countries. This means you are cleaning up drinking water and making positive changes in many lives and communities.

That was the plan. Now let's talk about another plan.

Here is something you can do that is a random act of kindness that will likely save someone's life---maybe yours.

My friend Ken in Pa. recently wrote to say he had worked to clean up a place on the Pa. Turnpike and another spot on a road where many wrecks had occurred over the past several years. One spot was known as 'dead man's curve' due to the number of people killed there.

Several months have passed and he wrote to say that no wrecks have occurred there since he cleared the energy.

Those of you who have attended class with me have heard similar stories. It has puzzled me why more of you good folks don't do what Ken did. It doesn't cost any money and is certainly an act of kindness.

In case you are wondering what he did---he just followed the instructions given in class and also in the "Techniques" book and "Energize Your Life."

Now some of you folks may still have a problem believing that entities along the side of the road can cause accidents. It's reasonable to not believe something until you have evidence, but when the accidents are reduced after the areas have been cleared is pretty good evidence that something happened.

Now some of you folks may still have a problem believing that entities along the side of the road can cause accidents. It's reasonable to not believe something until you have evidence, but when the accidents are reduced after the areas have been cleared is pretty good evidence that something happened.

Now let me stretch your mind a bit because once a mind is expanded, it can never return to its original size.

The exact same method of removing negative entities from trouble spots on the road can be used to clean up your local police dept. politicians, hospitals, jails, schools and whatever else needs it.

Have been telling you that if you do nothing, nothing will happen, but if you do something, then something will probably happen.

Here are a couple of good thing about dowsing—you don't leave any tracks and you don't have to buy a license.

Let's start off this New Year and DO SOMETHING!

**I APPRECIATE YOU!**

It is time for A Call to Action. December 22, 8 P.M. Local time, where ever you may be in the world. For full details....[click here.](#)
