**Howdy Folks,**

**Good News.** It is my prediction that the world will not end this month. But if it does, you won't have to pay for all the Christmas presents you bought with your credit card~~~ so there is really no reason to worry.

**Energy is rising fast.** Have been measuring it for 14 years and if my calculations are correct it has risen about 1100% . That wasn't a typo, **ELEVEN HUNDRED %.**

**If we can accept the definition of energy as "The amount of good that can be done", then we have more energy to work with than ever before.**

**It also seems to be making people more sensitive. I know this because they contact me to find out what is happening.**

**We seem to be affected by people around us more than before. This season of the year has never been known for sanity and this year seems to be intensified. If you are in the shopping places, you are going to be rubbing elbows with a lot of people and they may not have the best energy. Their energy can affect your energy.**

**The energy of people and actions seems to go out quite a distance. That means you are affected by the neighborhood where you live.**

**This isn't any great philosophy, any thinking person knows they don't want to move into a crime and drug infested area. Ok, so you know all this, what to do about it?**

**Each morning use your dowsing or just your INTENT to neutralize the negative effect of the surrounding area upon you, your home and family, yes you can include the dog. To be safe, you might want to do this before going into your workplace or shopping place.**

**The first principle of my work is "All things are composed of energy and the intelligent human mind has the ability to direct energy."**

**For you advanced folks, this means you can take all the confused energy in a shopping mall and transform it into something good, like Freedom, Peace, Love, Happiness, Prosperity and whatever else you think appropriate.**

**We will continue the buy 3 get one free DVD sale until the end of Dec. Full details here....**
