March 2013

Howdy Folks,

Was invited to be on Coast to Coast AM Radio on Feb. 3/4 depending on which time zone you are in, as it is a late night show. Reached a few million people that night and seems like most of them wrote to me. Many of you signed up for this newsletter and you are welcome to read it and share it, but be aware I tell things as I see them and make no effort to be politically correct. My goal is to help people help themselves ~~not allow them to use me for 'spiritual welfare.' We are glad you are here and hope you benefit from the information and use it to make a difference in your life as many others have done.

While I appreciate your interest in this work, there wasn't time to answer all the questions, just answered the several hundred there was time for. Things change and it is travel time again, so that means little or no time to answer mail. Will do the best I can but there are more of you to ask questions than there are of me to answer them. Don't bother to suggest a secretary as that would be someone else to ask me, "how do I answer this person?"

Have put most of the information in the books and DVDs. Although there are new developments, there is enough information available to help you solve a lot of problems. The good thing about the material is, if you don't get it the first time,watch it or read it again. It's free after the first time.

Have you noticed that things feel a bit different lately? Am going to share with you some things we have noticed. You are under no obligation to believe it.

In the December newsletter I told you about neutralizing the negative effects of the surrounding area on yourselves, home and family. Many folks either didn't read it or didn't think they could do it, so they contacted me. This letter is a continuation to the December letter. For the new readers, our past newsletters are available to download and read on www.raymongraceproject.com

Have been measuring the energy of rain since 1997. It remained the same for 15 years and may have been the same for centuries before I started measuring it.

It has been exactly one year since we noticed the energy of the rain, snow and dew started to change. My friend Jeff Jones, the one who has lived on water since '97, was the first to notice the rain was different. Have measured many of the rains since then and measured the few snows we had this winter. Since the measurements were so much higher than ever before, I thought maybe our dowsing was not correct. It is good to have friends check us in situations like this, so we asked other people to check the energy of the rain and even though our number did not always match, the bottom line was the energy of rain had greatly increased.

We have noticed since December 21, the energy of rain and snow has risen faster than before. Have also noticed other changes as I cannot work on a certain element of people as before. Yes, I can still de-possess evil people to help protect innocent people. Yes, can still clean negative entities from homes, schools, jails and roads but it seems I cannot offer much, if any, benefit to those of low consciousness who are doing nothing to help themselves.

Some good people have made bad choices and if given the opportunity would make better choices in the future. Some people continue to make bad choices and don't seem to learn. So let me say it real bluntly as that seems to be the only thing that many people understand.

"If have a relative who has stolen from his/her grandparents to buy drugs, abused the family and generally been a constant worry and aggravation to the neighborhood, DON'T WRITE AND ASK ME TO HELP THEM!!! " If you watch 'Energize Your Life' you will learn a lot about how to deal with them non-physically.

The time has arrived that people need to take responsibility for themselves and I don't take responsibility for the bad actions of other people, and I would recommend that you not do that either.

On a more positive note~~ The potential energy of the earth and humans and animals is at the highest level in our lives and probably the highest level our ancestors experienced. With more energy, we can accomplish more, we can manifest faster. BE CAREFUL WHAT YOU THINK BECAUSE YOU CAN MAKE IT HAPPEN FASTER!!

Our sub-conscious mind does not take a joke, it takes everything serious so we need to be very aware of what we are thinking. It doesn't take any more energy to attract good luck than it does bad luck. It takes a more positive way of thinking.

Thoughts are the first step of creativity because your thoughts determine your decisions which determine your actions which determine your future.

Have a lot of classes scheduled across the country this year and hopefully will meet some of you folks. My classes are intensive, blunt and down to earth, but I make an effort to be nice to folks and show them ways to make a better life for them and their families.

The class in Olive Branch, Ms. is near the Memphis, Tn. airport and will suggest this as one of my 'International Classes'. Faye Henry is offering a gong session in the Memphis Gong Chamber on Friday, before the class on Saturday Morning. The Memphis Gong Chamber offers an experience that is unique and not found anyplace else in the world. The gongs are great for easy and effortless transformation of non beneficial emotions, they assist with relaxation, stress reduction, and balancing and focusing the brain. This makes it a perfect way to clear away the stress of travel and relax and focus your mind in preparation for the information Raymon will provide you with in class starting Saturday morning! You can read more about it and a new DVD that was recorded in the Gong Chamber called "Soul Orchestration" on her site at www.tsvibrations.com or email her for full details at faye@tsvibrations.com

International classes are those near an International Airport, making it convenient for you folks from other countries to attend. Be sure to contact us before buying a plane ticket to make sure the class will definitely happen, as I like to be considerate of your time and money. So far we have the Olive Branch, MS class and Charlotte NC that are near an international airport this year.

WISHING YOU A HAPPY SPRINGTIME!!!

Raymon

We appreciate you!

IT IS THAT TIME AGAIN!

Wed March 20th, time for Call to Action. And this day is special, if you do not join in, spend the day fully focused on the things you want to create in your life. If you want to join in, do it at 8 PM your local time anywhere in the world. For full details visit my website here. You do make a difference, so please join us.

If you would like to send this newsletter on to your group or friends and family, please do so. We have included it in PDF format for distribution here and you have permission to send it out, IF you send it out as a complete newsletter and do not subtract or change any part, or add to it. Send it just as it is please. And we appreciate you sharing this information and all you do to make the world a better place to live!
