## The Raymon Grace Newsletter

**Howdy Folks,**

**The past two newsletters contained letters from people who are winners and serve as wonderful examples of what can be done by using your mind.**

**They are winners because they used their minds to solve problems and make a better life for themselves and those around them.**

**Would like to share some more emails recently received as an inspiration to those of you who need it.**

**Larry was in class this past weekend and identified himself as a psychiatrist working with people who were low on the financial totem pole. All the questions he asked in class were directed as to how he could help his patients. This got my attention and I addressed his questions as best I could. His place of work was in an old mental hospital and these are some of the most haunted places with practically no energy. Larry was putting himself in an energetic disaster for 8 hours a day which is 1/3 of his life.**

**I suggested he take the workplace and use it for a class project and I would show him how to clean it up. He readily agreed. We measured his personal energy level and then cleaned up the workplace along with the projects of the others in class. Within a few minutes his energy had risen about 5 fold. He had been lactose intolerant all his life so we just included that in the 'mass clearing' I did for the group.**

**The next day he wrote me the following email.**

**Hello, Raymon:**

**Wow! I am really impressed. I DID have a great day at work today, and frankly, everyone else where I work seemed to have a good day, too. I took the extra step of 'detoxifying' my work place before entering the building, using my new bobber and my spirit guides, replacing any bad 'vibes' with good ones, if at all possible.**

**Also, I have had several milk (lactose) based foods yesterday and again today, and have suffered no ill effect. I am really grateful to you on both accounts, and look forward to watching your DVD "Raymon Grace Energizes Your Life" the first chance I get. I will also put my pendulum to work right away, every day.**

**You will recall that I am a psychiatrist working in the public mental health sector, so I daily see very ill (emotionally ill) people very regularly. They will be grateful for any help your techniques you have taught me are to them, as I am also sincerely grateful to you for leading our little band this weekend in such a good direction in our work, and being so specifically helpful to so many of us as you were during the seminar. My best wishes to you for your continued success in your own life; you are as deserving a person as I have ever met. A grateful new convert to the power of dowsing,  
Larry**

**Here is a short email from my friends Pat and Marion. When**

**she is in class, Pat tells the story of having a sore throat most of her life until she took the Emotional Release class and found herself in a burning building about 200 years ago and it was a terrible experience for her. After the session, which was about 9 years ago, she hasn't had a sore throat.**

**Seems that a lot of problems people have in this life are the results of something in a past life. I know some of you folks were taught in church that this stuff doesn't exist. I was taught that too but reached the point of having to decide if I would believe what the preacher said or believe what I saw happen. It wasn't a hard decision to make.**

**Hi Raymon,**

**Marion had not used her pool for 2 years and last week opened it to find about 5 inches of dirt at the bottom. Used your water DVD and put some in and shortly after the dirt actually moved to the sides where she could vacuum it out easily. Then saw algae on the sides so put more Raymon Grace water in and no Algae!!!! She is calling the pool the " Raymon Grace Spa". I went in it today and left feeling great!!! Thanks Raymon!**

**Pat and Marion**

**A few months ago, my friend Robert called to say his alfalfa field had weeds and needed to be sprayed.**

**The farm supply store had gotten the chemicals mixed up and sprayed it with the wrong chemicals and the alfalfa seemed to be dead. He couldn't find any at all.**

**The only choice he thought he had was to wait until next year, plow and re-seed the field with alfalfa. This cost money and he would lose the hay crop for this year. For a dairy farmer, this is a major disaster.**

**I offered to help, and scrambled the frequency of the chemicals and adjusted to the frequency to fertilize the alfalfa.**

**Robert said it was the best alfalfa crop he has ever had. Here are the pictures.**

**Folks when we get results like this, why should we doubt our ability to do anything to make life better?**

**Please connect the dots and realize that the same method will work on cleaning up water in various places including the rain and the air. Don't ask me if you can do it---just do it!!!!!!!!!!!!!!**

**Raymon**

**We appreciate you!**

**IT IS THAT TIME AGAIN!**

**Saturday, September 22nd, time for Call to Action. If you want to join in, do it at 8 PM your local time anywhere in the world. For full details visit my website here.**

**If you would like to send this newsletter on to your group or friends and family, please do so. We have included it in PDF format for distribution here and you have permission to send it out, if you send it out as a complete newsletter and do not subtract any part, or add to it. Send it just as it is please. And we appreciate you sharing this information and all you do to make the world a better place to live!**
